

Senior Care Management Services

Gain peace of mind with expert caregiving support

Are you concerned about an aging loved one? Are you worried that their home setting may no longer be safe? To help you better understand the needs of aging loved ones, you have access to Senior Care Management Services. Your certified care manager will conduct an in-home assessment and deliver a personalized care plan with recommendations.

You're not alone

- More than 1 in 6 Americans who work full-time or part-time also help care for an elderly or disabled family member, relative or friend.¹
- More than half of caregivers work full-time, and 70% of working caregivers experience work-related difficulties due to their dual roles.²

Key features

- No cost, in-person assessments by a certified care manager
- A full evaluation of an aging loved one's condition, medical history and home environment
- Detailed, customized care plan based on the assessment
- Recommendations for care, home security, local programs and more

Support is always available
